The Obama-Chesky Scholarship for Public Service Now Open!

We need young people from every corner of this country who share a curiosity about the world and the conviction to want to make positive change within it—just like the scholarship's founders.

The Voyager Scholarship was created by the Obamas and Brian Chesky, Co-Founder and CEO of Airbnb to help shape such leaders. Even though they come from different backgrounds, President Obama and Brian both believe that exposure to new places and experiences generates understanding, empathy, and cooperation which equips the next generation to create meaningful change.

The Voyager Scholarship Program is a two-year, leadership development and scholarship program. Through a transformational combination of barrier-reducing financial aid, an immersive work-travel experience, and a robust network of leaders and mentors, the Voyager Scholarship is designed to inspire, empower, and connect the next generation of leaders and equip them with the tools and resources they need to launch their careers in public service.

The program identifies students in their third year of undergraduate studies who have a passion for public service. Over the course of two years, programming will facilitate opportunities for students to refine their values-based leadership approach, build bridges across communities, and nurture their sense of curiosity as
approach, build bridges across communities, and nurture their sense of curiosity as they deepen their commitment to pursuing public service careers.
