2020-2021 Academic Year

REQUIREMENTS FOR PARTICIPATION

Dear Dartmouth Student-Athlete,

NCAA Bylaw 17.1.5 requires all student-athletes beginning their initial season of eligibility and all students who are trying out for a team to undergo a medical exam before they are permitted to engage in any physical activity. This exam must take place on or after March 8, 2020 (or within six months of the start date for your intended physical activity). The Dartmouth College Health Service follows this and the following as requirements for all students who plan to participate on varsity athletic teams or Men’s Club Rugby.

1.) **Schedule an athletic health physical and ask your medical provider to complete the attached Athletic History and Physical Examination form.** Physical exams submitted in any format other than the attached forms will not be considered for medical clearance to participate. Please also note that NCAA regulations require pre-participation medical exams to be completed by a medical doctor (MD), doctor of osteopathic medicine (DO), or nurse practitioner licensed to practice in their state independent of physician supervision. If the physical is completed by any another medical provider, Dartmouth College requires that the physical be countersigned by an MD or DO.

2.) **Provide adequate documentation of diagnosis and treatment of conditions requiring the use of banned substances, including (but not limited to) stimulant use for ADHD/ADD.** To allow for a medical exception for athletes taking stimulant medication, please provide your medical provider with the attached Medical Exception Form—ADD/ADHD. Please submit completed forms with the attached Athletic History and Physical Exam forms prior to coming to campus.

3.) **Complete waivers, releases, and online forms.**
   - **Sickle Cell Trait requirement:** In order to participate in intercollegiate athletics at Dartmouth College, NCAA and Dartmouth require student-athletes to (a) be tested for sickle-cell trait, (b) provide Dartmouth with results of a prior test, OR (c) refuse sickle-cell testing. This must be done prior to participation in any NCAA-recognized sport and all related activities, including any weight training or conditioning workouts.
   - **Comprehensive Athletics Participation Waivers and Release Forms:** These three online forms can be found on the Health Portal, accessed through the ‘Health Services Forms’ link on your Banner account.
   - **Heat Illness History Form:** This online form is also accessed in the Forms tab of the Health Portal.

4.) **Complete all Undergraduate Entering Student Health & Immunization Requirements.** Prior to sports clearance, all students must also be cleared by Medical Records at the Health Service.

Submission of all parts of this Athletic History and Physical Exam form are due back to the Dartmouth College Health Service by **June 30, 2020.**

Benjamin Schuler, MS, NHLAT, ATC
Head Athletic Trainer
Dartmouth College Sports Medicine

Kristine Karlson, MD
Team Physician
Dartmouth College Health Service

Office: 603-646-9419 • Email: sports.medicine@dartmouth.edu • URL: dartgo.org/athleticclearance  (1/10)

Late or incomplete submissions may result in your inability to participate in team activities upon your arrival to campus. This includes conditioning, weight training, team and individual practices, testing, and competition.

CHECKLIST TO COMPLETE/SUBMIT:

☐ Athletic History and Physical Exam for Varsity Teams and Men’s Rugby (pages 3-6)
  − We are aware that many insurance plans allow for only one well-child visit per year, which may fall before our earliest accepted date of March 8, 2020, OR after our specified deadline of June 30, 2020. We suggest you contact your insurance provider to ask whether they might waive this restriction for the purpose of a college entrance physical.
  − The following is required supplemental documentation, if applicable:
    □ Any surgeries after January 1, 2019, require submission of operative report and documentation of clearance for return to sports. If not yet cleared to return to sports, documentation of current activity status may be substituted.
    □ Prior work-up for known or suspected cardiac abnormalities.
    □ Prior cardiac testing for symptomatic events.

☐ Appropriate documentation for use of banned substances, including Medical Exception Form—ADD/ADHD, return only if applicable (pages 7-8)

☐ Sickle cell trait testing results OR Release Form—Sickle Cell Trait Solubility Test (page 9)

☐ Complete online Comprehensive Athletics Participation Waiver and Release Form

☐ Complete online Heat Illness History Form

☐ Entering Student Health and Immunization Requirements:
  − The Athletic History and Physical Exam is separate from the Undergraduate Entering Student Health and Immunization Requirements and Sports Medicine requires that prior to sports clearance all students must also be cleared by Medical Records at the Health Service.
  − For additional instructions, refer to: https://students.dartmouth.edu/health-service/medical-records/incoming-student-requirements/undergraduate-students
  − The following Health and Immunization Requirements should be sent separately to Medical Records as indicated on their site.
    □ Dartmouth Immunization Form
    □ Tuberculosis Screening/Testing Form
    □ Online Health Forms
    □ Special Authorization for Minors (if applicable)

We recommend that you retain an original copy of all paperwork for your records.

Submit completed Athletic History and Physical Exam forms to:

Dartmouth College Health Service
Attn: Sports Medicine—Athletic Physical
7 Rope Ferry Road
Hanover, NH 03755
Fax: 603-646-9410
Email: sports.medicine@dartmouth.edu

Office: 603-646-9419 • Email: sports.medicine@dartmouth.edu • URL: dartgo.org/athleticclearance (2/10)
Student name: ______________________ Date of birth: ___________ □ Recruited □ Walk-on/try-out

Preferred name: ______________________ Intended team: ___________ □ Men □ Women □ Coed

NOTE: Complete and sign this form (with your parents if younger than 18); bring it with you to your physical.

List past and current medical conditions: ____________________________________________________________

Have you ever had surgery? If yes list all past surgical procedures and dates. _______________________________

List all current prescriptions, implants, over-the-counter medicines, and supplements (herbal and nutritional):

____________________________________________________________________________________________

Do you have any allergies? If yes, list all allergies other than seasonal rhinitis (ie, medicines, food, stinging insects). Be sure relevant medications are listed above.

____________________________________________________________________________________________

### NCAA REQUIRED QUESTIONS

<table>
<thead>
<tr>
<th>YES</th>
<th>NO</th>
</tr>
</thead>
</table>
| Is the student taking prescribed medication for Attention Deficit Hyperactivity Disorder (ADHD)?  
If yes, please refer to instructions on pages 7-8 regarding NCAA guidelines on banned substances. |    |
| Has the student been tested for Sickle Cell Trait?  
If yes, please submit documentation of test results with this packet  
If no, please refer student to page 9 (Release Form—Sickle Cell Solubility Test) |    |

#### Checklist for Additional Required Documentation

- [ ] Documentation of all prior work-up for known or suspected cardiac abnormalities.
- [ ] Documentation of any prior cardiac testing resulting from symptomatic events.
- [ ] Operative report and documentation of clearance for return to sport for any surgeries after January 1, 2019. If not yet cleared to return to sports, documentation of current activity status may be substituted.
- [ ] Sickle Cell Trait test results OR Release Form—Sickle Cell Solubility Test

### MEDICAL CLEARANCE

NCAA Banned Substance Documentation Requirements

Dear Parents and Health Care Providers,

Your child/patient, a student at Dartmouth College, plans to participate in intercollegiate athletics at our institution. The NCAA has compiled a list of prescribed medications composed of substances that are generally purported to be performance enhancing and/or potentially harmful to the health and safety of the student-athlete. These medications are banned for use by NCAA athletes. The NCAA recognizes that some banned substances are used for legitimate medical purposes and allows exception to be made for those student-athletes with a documented medical history demonstrating the need for treatment with a banned medication. Exceptions may be granted for substances included in the following classes of banned drugs: stimulants, beta blockers, diuretics, anti-estrogens, beta-2 agonists, peptide hormones and anabolic agents. Learn more about the NCAA drug testing program on their website:

Student-athletes taking stimulant medication for the treatment of ADD/ADHD must provide specific documentation of diagnosis and treatment to allow for medical exception. The Dartmouth College Health Service requests the information indicated on the enclosed form: Medical Exception Form—ADD/ADHD. This additional documentation is critical for his/her eligibility in athletics.

Use of peptide hormones and anabolic agents must be pre-approved by the NCAA before the student-athlete is allowed to participate in competition while taking these medications. This can be accomplished through the coordination of the prescribing physician and the Head Athletic Trainer.

For all other medications in the banned substance categories listed above, prescribing physicians may submit as documentation: a letter or copies of medical notes documenting how the diagnosis was reached, and that the student-athlete has a medical history demonstrating the need for treatment with the banned medication. The letter should contain information as to the diagnosis (including appropriate verification of the diagnosis), medical history and dosage information.

Anyone can inquire about the status of any prescription medication at the Drug Free Sport Axis:
Website: https://dfsaxis.com/users/login
Organization: NCAA Division I
Password: NCAA1
Create an account to inquire about dietary supplements.

Documentation of the use of banned medications is required to be re-submitted annually as long as the student continues to participate in NCAA athletics. In providing this required documentation, you acknowledge that you have reviewed the patient’s health history and have provided safety information regarding banned substance use as well as misuse guidelines.

Benjamin Schuler, MS, NHLAT, ATC
Head Athletic Trainer

BANNED SUBSTANCE DOCUMENTATION
MEDICAL EXCEPTION FORM—ADD/ADHD

Only return this page if form is applicable.
Form only applies to those students being treated for ADD/ADHD with prescription medication.

Student name: ___________________________ Date of birth: ___________________________

TO BE COMPLETED BY HEALTH CARE PROVIDER:

Your patient is a student-athlete participating in intercollegiate athletics. The NCAA bans the use of some stimulant medications and requires that the following documentation is submitted to support a request for a medical exception in the case of a positive drug test for such use.

For additional information, please visit the NCAA Health & Safety website:

Checklist for Required ADHD Documentation:

☐ Written report of comprehensive clinical testing (neuropsychological testing).
  − This evaluation should include individual and family history, address any indication of mood disorders, substance abuse, and previous history of ADHD treatment, and incorporate the DSM criteria to diagnose ADHD.
  − The evaluation can and should be completed by a clinician capable of meeting the requirements detailed above.
  − Attach supporting documentation, such as completed ADHD Rating Scale(s) scores and copies of test results.

☐ Letter or clinical notes of the original diagnostic evaluation, including:
  − How the diagnosis was reached, and that the student-athlete has a medical history demonstrating the need for treatment with the banned medication.
  − Which non-banned alternative medications which have been considered.
  − Medication, dosing, and follow-up plan.

☐ Letter or clinical notes of the most recent follow-up note with the prescribing provider (must be within the last calendar year).

Please summarize care here:

Date of initial diagnosis: ___________________________ Date of most recent follow-up visit: ___________________________
Follow-up interval:  3 months  6 months  12 months  Other: ___________________________
Current medication/dosage: ___________________________
Alternative non-banned medications which have been considered: ___________________________
Other comments: ___________________________

Provider name (printed): ___________________________ MD  DO  NP  PA
Provider signature: ___________________________ Date: __________
Specialty: ___________________________ Office address: ___________________________
Office phone: ___________________________ ___________________________

Completed form should be returned with Athletic History and Physical Exam form to:
Dartmouth College Health Service  Fax: 603-646-9410
Attn: Sports Medicine—Athletic Physical  Email: sports.medicine@dartmouth.edu
7 Rope Ferry Road, Hanman Box 6143
Hanover, NH 03755

Office: 603-646-9419 • Email: sports.medicine@dartmouth.edu • URL: dartgo.org/athleticclearance  (8/10)
BACKGROUND INFORMATION:

Sickle cell trait (SCT) is not a disease. It is the inheritance of one gene for sickle hemoglobin and one for normal hemoglobin. SCT is a life-long condition that will not change over time.

SCT can affect athletes at all levels. During intense exercise, red blood cells containing the sickle hemoglobin can change shape from round to quarter-moon or “sickle”. Sickled red cells may accumulate in the bloodstream at that time, blocking normal blood flow to tissues and muscles. During intense exercise, athletes with SCT have experienced significant physical distress, collapsed and even died. Heat, dehydration, altitude and asthma can increase the risk for, and worsen complications associated with, SCT — even when exercise is not intense. Athletes with SCT should not be excluded from participation as precautions can be put into place.

For additional information about SCT, please go to the following NCAA website:
http://www.ncaa.org/health-and-safety/medical-conditions/sickle-cell-trait

TESTING OPTIONS:

In order to participate in intercollegiate athletics at Dartmouth College, NCAA and Dartmouth require student-athletes to (a) be tested for sickle-cell trait, (b) provide Dartmouth with results of a prior test OR (c) refuse sickle-cell testing. This must be done prior to participation in any NCAA-recognized sport and all related activities, including any weight training or conditioning workouts.

I, ________________________________ (first and last name), am aware that if I have SCT, I am at an increased risk for serious illness or injury, including death, especially during physical exertion.

I have had a full opportunity to ask questions concerning SCT (and testing for SCT) and to discuss the risks associated with participation in intercollegiate athletics at Dartmouth if I have SCT. Any questions or concerns I had, if any, have been addressed to my satisfaction.

In light of the above, I choose (select one option by adding your initials to the appropriate space below):

(a) **TEST NOW:** I would like to be tested and understand that I will not be cleared to participate in athletics activities until results have been received and reviewed by Dartmouth.

(b) **PRIOR TEST:** I have been tested previously and am providing evidence of those results to Dartmouth. I confirm that this evidence is a true and accurate copy of my prior SCT results and understand that Dartmouth is relying upon the accuracy of these results in to allowing me to participate in intercollegiate Athletics.

(c) **REFUSE TEST:** I voluntarily choose not to be tested at this time but reserve the right to be tested at a later date. I understand the risks involved if I choose NOT to be tested for SCT and I knowingly assume such risks. If I chose NOT to be tested for sickle-cell trait, I agree that, in consideration for being granted the opportunity to participate in intercollegiate athletics at Dartmouth without agreeing to be tested for SCT, and in full recognition and appreciation of the risks associated therewith, I, for myself, my executors, administrators and assigns, do hereby release and forever discharge the Trustees of Dartmouth College and each of the administrators, faculty members, employees, agents and students of Dartmouth College (the “Releasees”) from any and all liability for losses, damages, injuries or costs, including but not limited to those described above, that may arise out of or that may in any way be related to such athletic participation, whether caused by my negligence or carelessness or the negligence of the Releasees or otherwise. I understand that this release means that, among other things, I, for myself, my heirs, representatives and assigns, am giving up the right to pursue a claim, cause of action or otherwise sue Dartmouth or the Releasees for any such losses, damages, injuries or costs that may arise in connection with my sickle cell trait status.
I represent and certify that I am at least 18 years old and that I have read, understand and agree to be legally bound by the above statements. (If you are under 18 when completing this form, parent or guardian co-signature is required.)

This release form, including its assumption of risk, waiver and release of claims provisions, and any claim that may arise from it or from the matters set forth above, shall be governed by and interpreted under the laws of the State of New Hampshire without reference to the law of any other jurisdiction, and any dispute shall be brought to, conducted in and decided by a New Hampshire with jurisdiction over such dispute.

Name (please print): ___________________________ Date of Birth: ______________
Signature of student: ___________________________ Today's Date: ______________
Signature of parent/guardian: ___________________________ Today's Date: ______________
(If student is under 18)

Did you know?
Many newborns in the United States are tested for sickle cell trait at birth, so test result information may already be available within your current medical record.

If you choose to be tested now, have the test done at home, prior to reporting to campus.

Completed form should be returned with Athletic History and Physical Exam form to:
