P: (603) 646-9439 \* F: (603) 646-9410

### Health Service Eligibility Program Application

All active Dartmouth students, including those not taking classes or who are on a leave term, are eligible to receive services at the Health Service.

Students who are on a leave term or not enrolled in classes, but who are classified as active in the College Information System (Banner), may enroll into the Health Service Eligibility Program (HSEP) for a non-refundable fee per term. Students enrolled in the HSEP receive the same access as registered students. They are also subject to the same billable services as registered students.

A listing of Health Service billable services and the associated fee is available on the Health Service website located at <https://students.dartmouth.edu/health-service/>

The Health Service does not submit claims directly to outside insurance companies, however, upon request from the patient an invoice will be provided that the patient may submit to their health plan for possible reimbursement.
