Join an effort to reimagine liberal arts education for an era of climate change on islands off the Massachusetts coast.

We are now accepting applications for this year’s Buzzards Bay Term! Inspired by our 2023 “Junemester”, the program is open to current and recent undergraduates and will run on Penikese and Cuttyhunk Islands from May 13 - June 2, 2024. Join us to farm oysters, tend conservation land on remote islands, read major works of Western and Indigenous traditions, and chart a new approach to liberal arts learning for an age of climate change. For more information, and a description of a day in the program, visit our application page.

The program, including tuition and room-and-board, is free for all students. Application deadline is February 23, 2024. Please spread the word to your friends, colleagues, and interested students!
