2016 Elections Results

The Elections Planning & Advisory Committee (EPAC) is an independent committee charged with creating and governing campus elections. The 2016 EPAC Board would like to formally announce the winners of this year's elections. This year, we took a new approach to counting the ballots. We have indicated the number of ballots cast for each position, rather than total ballots cast in the election. However, for purposes of comparison, 1638 ballots were cast in 2015.

We would like to thank all of the candidates for their hard work over the past week in upholding the integrity and fairness of the election process. We also thank all students who took the time to vote.
