Accommodating SAS Students for Canvas Exams/ Quizzes

With the need to move teaching and learning to online platforms, Student Accessibility Services (SAS) is sharing the following guide regarding implementation of extended test time and/or rest break accommodations, including those administered on Canvas. Considering the rapidly changing COVID-19 situation, we appreciate your flexibility and patience with regards to students who may need further considerations.

Contents

- I. Take-home exams spanning one or more day(s) – p. 2
- II. Timed exams via Canvas – p. 2
- III. Changing or extending due dates for individual students – p. 3
- IV. Adding exam/quiz time for individual students – p. 5
- V. Additional exam/quiz attempts for individual students – p. 7
- VI. Editing submission type (text, file upload, etc.) on Canvas – p. 9
- VII. Accommodated time calculations – p. 10

I. Take-home exams spanning one or more day(s)

Generally, students do not need extended-time accommodations for take-home exams lasting 24 or more hours. However, given that students may have several midterms with this format or if exams require students to engage in outside research/reading, some students may need extra time for take-home exams (although usually not as much as for in-class exams). As students communicate with SAS, we will review their disability-related circumstances and may contact you to learn more about your course and exam characteristics. All of this information will put SAS in a position to ascertain and inform you if additional time (and, if so, how much) is reasonable for a take-home exam.

II. Timed exams via Canvas

If the student needs to access your course's Canvas page to download the exam prompt but will be completing the exam via Word/Excel and then uploading it back into the Canvas site, please keep in mind the student's end time will be later than their peers. If you do not wish to extend the Canvas deadline for submission, we recommend having the student email you a copy that will also have a timestamp of submission with a short grace period.

If the student needs to access your course's Canvas page to access an embedded quiz/exam (which is commonly referred to as using the "Speedgrader" function in Canvas), please note that you will need to create separate embedded exam(s) for SAS students who receive extended time and/or rest break accommodations based on the amount of extended and/or rest break time the student receives.

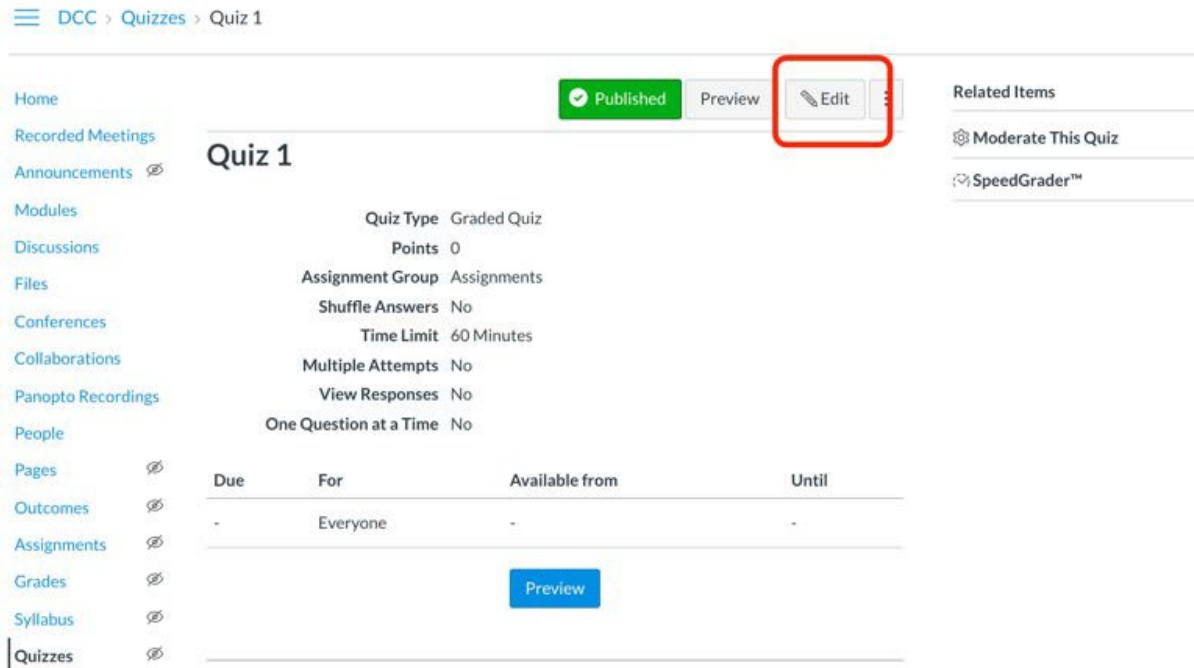

- **Class conflicts:** If a student who receives extended-time accommodations has a class directly before or after yours, they should alert you to their conflict in the event of a timed test. Students should not be required to miss class time in any course due to their extended-time accommodations.
- **Front-loading exams:** If the student does not have a course immediately preceding yours, then our general suggestion is to front-load their exam (they start earlier than their peers, but end at the same time). If your course is sandwiched between two courses, please notify the student(s) regarding your preference for when they will take your exam.
- **Accommodating breaks during exams:** To accommodate students' break time, you may add the student's entire allotted break time to the end time for the exam. If you are front-loading the exam for the student so that all students end their exams at the same time, you will need to adjust the student's start time to include this added break time.

III. Changing or extending due dates for individual students

*This can be set when creating the Assignment or edited after an Assignment is created. This does not change the allotted time for timed exam/quiz, **it only extends the due date.***

1. Navigate to the Assignment in the Canvas course and select “Edit”.

DCC > Quizzes > Quiz 1

The screenshot shows the Canvas interface for editing a quiz. The top navigation bar includes a menu icon, 'DCC > Quizzes > Quiz 1', and buttons for 'Published', 'Preview', and 'Edit' (highlighted with a red box). The main content area displays the quiz details for 'Quiz 1'.

2. Scroll to the “Assign” section at the bottom of the page. Select “+ Add”. The first “Assign to” box should now say “Everyone Else” instead of “Everyone”.

3. In the new “Assign to” box, begin to type the name of the student with a different deadline from the rest of the class, and select that student’s name when it appears. Multiple students can be added to one box if they have the same deadline.

The screenshot shows a 'Assign to' dialog box with two entries. The first entry is for 'Everyone Else' with a due date of 'Mar 16 5pm'. The second entry is for 'Sandesh Tuladhar' and 'Justin Saunders' with a due date of 'Mar 18 5pm'. Red boxes highlight the student names, the due date, and the 'Add' button in the second entry.

4. Adjust due date and times as needed for the student(s).
5. Press **Save**.

IV. Adding exam time for individual students

The exam/quiz will need to already be published in Canvas in order to add additional time.

1. In the Canvas course, navigate to the Quiz and select “Moderate This Quiz” on the right-hand side.

The screenshot shows the Canvas interface for a quiz titled "Quiz 1". The breadcrumb trail is "DCC > Quizzes > Quiz 1". On the left is a navigation menu with items like Home, Recorded Meetings, Announcements, Modules, Discussions, Files, Conferences, Collaborations, Panopto Recordings, People, Pages, Outcomes, Assignments, Grades, Syllabus, and Quizzes. The main content area shows quiz settings: Quiz Type (Graded Quiz), Points (0), Assignment Group (Assignments), Shuffle Answers (No), Time Limit (60 Minutes), Multiple Attempts (No), View Responses (No), and One Question at a Time (No). Below these settings is a table with columns: Due, For, Available from, and Until. The table contains one row with "Everyone" in the "For" column. A "Preview" button is located below the table. On the right side, there are buttons for "Published", "Preview", "Edit", and a menu icon. Below these is a "Related Items" section with a "Moderate This Quiz" button (highlighted with a red box) and a "SpeedGrader™" link.

2. Find the student who requires a time accommodation and select the pencil icon on the right-hand side.

[Quiz 1](#) > Moderate Quiz

The screenshot shows the "Moderate Quiz" page. At the top is a search bar labeled "Search People" with a "Filter" button on the right. Below the search bar is a table with the following columns: Student, Attempt, Time, Attempts Left, Score, and a pencil icon. The table contains three rows of student data:

<input type="checkbox"/> Student	Attempt	Time	Attempts Left	Score	
<input type="checkbox"/> Abrams, Michael	--		1		
<input type="checkbox"/> Aggarwal, Maneesha	--		1		
<input type="checkbox"/> Akter, Nafiza	--		1		

3. Add the additional amount of time that the student gets into the “Extra time on every attempt” box. For example, if the exam is 60 minutes for the class, but an individual student gets 90 minutes, put 30 minutes into the box. The other items can be left blank. Press Save.

Student Extensions ✕

Extensions for

Extra Attempts: attempts
everyone already gets 1

Extra time on every attempt: minutes
everyone already gets 60 minutes

Manually unlock the quiz for the next attempt

4. You should now see the extra time that the student is allowed noted below their name.

<input type="checkbox"/> Abrams, Michael gets 30 extra minutes on each attempt	--		1	0	
<input type="checkbox"/> Aggarwal, Maneesha	--		1		
<input type="checkbox"/> Akter, Nafiza	--		1		

V. Additional exam/quiz attempts for individual students

The exam/quiz will need to already be published in Canvas in order to allow additional attempts for an individual. Additional attempts for all students can be made by Editing the Quiz.

1. In the Canvas course, navigate to the Quiz and select “Moderate This Quiz” on the right-hand side.

The screenshot shows the Canvas interface for a course. On the left is a navigation menu with items like Home, Recorded Meetings, Announcements, Modules, Discussions, Files, Conferences, Collaborations, Panopto Recordings, People, Pages, Outcomes, Assignments, Grades, Syllabus, and Quizzes. The main content area is titled 'Quiz 1' and shows settings for a 'Graded Quiz' with 0 points, 60 minutes time limit, and no multiple attempts. A 'Preview' button is visible. On the right, under 'Related Items', the 'Moderate This Quiz' button is highlighted with a red box.

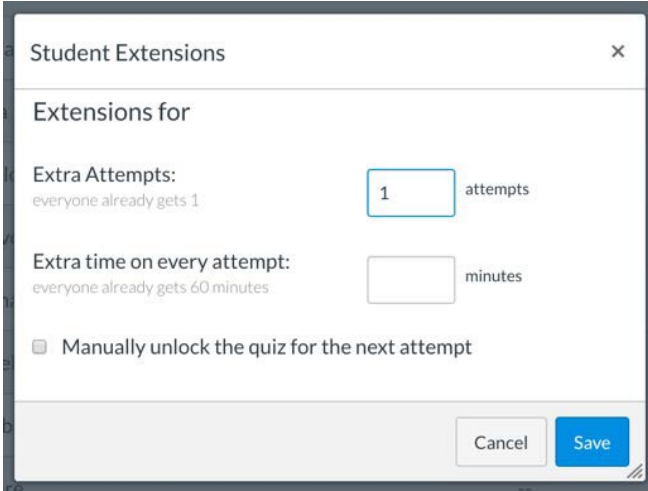

2. Find the student who requires a time accommodation and select the pencil icon on the right-hand side.

The screenshot shows the 'Moderate Quiz' page. At the top, there is a search bar for 'Search People' and a 'Filter' button. Below is a table with the following data:

<input type="checkbox"/> Student	Attempt	Time	Attempts Left	Score	
<input type="checkbox"/> Abrams, Michael	--		1		
<input type="checkbox"/> Aggarwal, Maneesha	--		1		
<input type="checkbox"/> Akter, Nafiza	--		1		

The pencil icon for Michael Abrams is highlighted with a red box.

3. Add the number of extra attempts that the student receives into the “Extra Attempts” box. For example, if the student gets 2 total attempts, and all other students get 1 attempt, enter 1 in the box. The other items can be left blank. Press Save.

<input type="checkbox"/> Abrams, Michael gets 30 extra minutes on each attempt	--		1	0	
<input type="checkbox"/> Aggarwal, Maneesha	--		2	0	

VI. Editing submission type on Canvas

Please note that this will change the submission type for all students, not for an individual student.

1. Navigate to the Assignment in the Canvas course and select “Edit”.
2. Scroll down to “Submission Type” and select the submission type(s) allowed for the Assignment.

Restricting file types is also possible, but if written incorrectly (e.g. “.pdf” instead of “pdf”) it will restrict all students from uploading any files and cause problems. It is recommended that you write a note in the Instructions for file types rather than restricting file types this way.
